European Profiles has been awarded the implementation of the project "**Upgrading the structure and operations of the Economic Chamber of Greece for the improvement of the business environment**

»

.

The project has a budget of € 900.000 plus VAT and duration of 18 months.

The project concerns the mapping of the existing expertise of the Economic Chamber of Greece, the way it is organized and the procedures currently in place for its exploitation, the way of receiving and responding to requests for know-how and expertise related to its competence, the comparison between the required specialized information and the information provided today by the Chamber, the existing channels for receiving requests and detecting their processes, their internal routing, the processing and formulation of responses, the methods and the channels for the provision of expertise to stakeholders.

After reviewing and evaluating the current situation, a new operational function will be proposed concerning the activities of the Chamber and the transition of the Chamber into this new mode of operation will be supported.
