

European Profiles S.A. has been awarded a new contract in Greece entitled "Organization and implementation of the Update & Planning Mechanism for the coordination, implementation and monitoring of the implementation of actions for the modernization of operational actions and decision-making due to COVID19 infection". The project is funded by Public Investment Program . Its budget is € 46.774,19 plus VAT.

**The global objective** is the update of the Mechanism for the Coordination and Monitoring of the actions and decision-making due to pandemic crisis SARS COVID-19.

The purpose of the Contractor's Project is:

1. The provision of expertise for the updating of the operational emergency management plan, "ARTEMIS", sufficiently designed and specialized for the treatment of the SARS-CoV-2 pandemic, according to the data and parameters as formulated and based on all data and the international literature.
2. The study for the development of an IT simulation application in which data of the evolution of the SARS-CoV-2 pandemic and operational actions will be registered, so as to contribute to the decision-making of the competent committees.
